

Questionnaire for Mapping of NCDs

The NCD alliance was founded initially by four international NGO federations representing the four main NCDs – Cardiovascular Diseases, Diabetes, Cancer & Respiratory Diseases. Together with other major international partners, the NCD alliance has united a network of over 2000 civil society organizations in more than 170 countries. The NCD Alliance uses targeted advocacy to ensure that NCDs are recognized as a major cause of poverty and a barrier to economic development, and a global emergency. It works with wide range of partners and organizations so that The NCD Alliance can speak with a united voice at international meetings, mobilizing over 2,000 CSOs, convene expert groups to work out action plans and policy, promote research to augment the evidence base to lobby governments to recognize that NCDs are a global development priority requiring urgent action.

With NCDs reaching epidemic proportions, Sri Lanka with the help and support of the WHO recognizes the need to formulate our own NCD Alliance Lanka and set itself specific objectives.

1) Name and address of your Organization:

Name:

Address:

Tele:

Fax:

Email:

Name of the Primary Office bearer / Director / President / Secretary/ CEO :

(please also select the title that is being used)

Mobile:

email:

Name of the contact person [if different from above] :

Mobile :

email:
